Nicholas Stecyna

New York, NY 10019 | 201-744-6171| ndstecyna@gmail.com | nstecyna.github.io

Technical Skills

Languages: Java, Python, TypeScript, JavaScript, SQL (Oracle / MySQL), Golang, HTML/CSS
Testing & CI/CD: TestNG, Postman, GitHub Actions, Jenkins, Kafka, AutoSys, Jira, Git
Cloud & Web: Microsoft Azure (AKS, Blob Storage), Docker, Kubernetes, Linux, Vue 3, Nuxt 4
AI & Data: Claude Code (CLI and headless), multi-agent workflows, prompt engineering, Pandas, FIX Protocol

Professional Experience

QA Automation Developer New York, NY, **July 2023-Present**
Bank of America (Contractor: Innova Solutions/Randstad)

- Translate technical findings to business stakeholders and support legal teams as primary technical liaison for FINRA regulatory compliance reporting (i.e. Rule 605/606, Electronic Blue Sheets, CAT)
- Lead the successful retirement of a legacy data feed, streamlining processes and saving hundreds of hours in manual effort
- Develop and maintain robust Java TestNG automation frameworks running 5,000+ regression test cases for regulatory reporting
- Build automation scripts for validating and analyzing regulatory data across disparate data feeds in Oracle SQL
- Diagnose defects affecting millions of financial transactions through SQL-driven root cause analysis
- Design a Python tool to compare Rule 606 reporting outputs, enhancing data accuracy and auditing efficiency
- Mentor junior team members, onboarding them in compliance tooling and best communication practices

Software Engineer Verona, WI, **August 2021-June 2022**
Epic Systems Inc.

- Established SaaS microservices on Azure Kubernetes Service for multiple healthcare application teams
- Designed and developed a Golang API client and Cobra CLI integration for Azure Blob Storage access
- Led a cross-team root cause analysis of production deployment failures and drove the fixes that stabilized releases
- Automated email notifications by using new SQL database stored procedures in HTML, TypeScript, and C# to notify customers and staff about ongoing application issues
- Proposed and created a new testing environment for an external team's website using SQL database schema rollouts to allow testing of future code deployments

Advanced Course In Engineering (ACE) Program Graduate Assistant Rome, NY, **November 2019-August 2020**
Assured Information Security / Air Force Research Lab

- Restructured an intensive cybersecurity summer bootcamp to run offline between the United States and the United Kingdom
- Conducted a simulated cyber war between three teams through a contested network over ten weeks to foster leadership and facilitate hands-on cybersecurity experience
- Mentored 29 interns for 7 weeks through online communication to coach technical and leadership skills
- Constructed a virtual battlespace network and hackable network enclaves for interns to traverse and practice offensive and defensive cybersecurity techniques

ACE Program Cybersecurity Intern Rome, NY, **May 2019-August 2019**
Assured Information Security / Air Force Research Lab

- Conducted research and developed offensive hacking tools for the NSA
- Wrote 10+ technical papers outlining solutions to cybersecurity challenges and presented to management and peers
- Collaborated with teammates in a simulated cyber war to develop simulation vehicle tools and conduct cyber attacks

Projects

Compendium - Personal Web App **October 2025-Present**

- Build a cross-campaign tabletop RPG reference tool in Nuxt 4, Vue 3, and TypeScript, with a searchable taxonomy of classes, species, spells, equipment, and monsters across a library of PDF files and online sources
- Design a multi-agent AI development workflow with separate Planner, Designer, Builder, Reviewer, and Auditor roles, keeping planning, implementation, and review as distinct, auditable stages
- Configur GitHub Actions CI with automated Claude Code PR review, and added a prompt-audit role after diagnosing a spec divergence

Education

Binghamton University, Bachelor of Science, Computer Science **August 2017 - 2021**
Microsoft Certified: Azure Fundamentals **September 2022**

Leadership & Activities

Dungeon Master - Dungeons & Dragons **March 2026-Present**

- Onboarded 20+ new players with a homemade Google Slides training course and hands-on one-shot sessions
- Lead a recurring 10-player campaign, coordinating group schedules and preparing contingencies for each session
- Resolve conflict and build team cohesion in a diverse group while adapting the story in real time

Boy Scout Troop 31, Eagle Scout **Ramsey, NJ, January 2017-Present**
